CTS Consulting
3126 Berkshire Road
Baltimore, MD 21214
410-444-5857

From 695

Take exit 31 (Parkville/Carney) onto Harford Road traveling south (Parkville) you will go five miles through 16 traffic lights (but whose counting?). Major intersections you will cross include Taylor Avenue, Northern Parkway, Echodale Road, and Moravia/Coldspring Lane.

After crossing Moravia Road/Coldspring Lane, the next major intersection will be Harford Road and Parkside Drive. Take a left at Parkside (you will see a church on your left). Go one block to the next light. Take a left onto Walther Avenue. As soon as you take the left, you will take an immediate right (it will be like cutting caddy corner across the intersection) the right hand turn will put you on Berkshire Road. Our house is 3126. It's the seventh house on the left. It's a frame house with green shutters. There is parking on the street.

From I-95

Take 95 north through the Fort McHenry tunnel. Take exit 60 (Moravia Road). There is only one exit so just bear to the right until you are on Moravia Road proper. You will go through 3 major intersections - Moravia Park Drive, Sinclair Lane and Belair Road. As you cross Belair Road, you will see a cemetery on your left. You will also see the area is becoming residential. At the next light, Walther Avenue, take a left. Stay on Walther Avenue for approximately one to two minutes. You will see a traffic light (Parkside Drive) but you will never reach it because you will take the last left before the light. That left is Berkshire Road. Our house is 3126. It's the seventh house on the left. It's a frame house with green shutters. There is parking on the street.

If you get lost call 410-444-5857.
